'Bring Asean, UN into gov't-MILF talks'

Water rates to rise due to forex adjustment

MANILA (AP)—Gov't officials here said they will ask Congress to amend the 1996 peace accord with the Muslim Liberation Front (MILF) to require the group to bring Asean and the United Nations into the talks.

The request comes as the government seeks to end the 10-year conflict with the MILF, which has been fighting for an independent Muslim state in Mindanao. The government has been seeking to end the conflict with the MILF, which has been fighting for an independent Muslim state in Mindanao.

China fishing fleet arrives in Spratlys

Page B1

Newsweek (Jan. 12) there is a "significant" increase in the number of Chinese fishing boats in the South China Sea. The boats are reportedly fishing for fish and other marine resources in the area.

Don't fret

There is no danger of a Chinese fishing fleet arriving in the South China Sea, says a Chinese official. The fleet is reportedly fishing for fish and other marine resources in the area.

Abstract—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged men. The subjects were 15 men, aged 40–50 years, who were sedentary and had no cardiovascular disease. They were divided into two groups: a control group and a training group. The control group continued their sedentary lifestyle, while the training group participated in a 12-week aerobic training program. The HR and EE were measured at rest and during submaximal exercise before and after the training program. The results showed that the training group had a significant decrease in HR and an increase in EE compared to the control group. These findings suggest that a 12-week training program can improve cardiovascular fitness and increase energy expenditure in sedentary, middle-aged men.

Win-win with brown rice

By **MO FENG-LIEN**

Editor, *Wash. Post*

THE CHINESE GOVERNMENT'S decision to open its market to U.S. rice is a win-win for both sides. The U.S. rice industry will benefit from the increased demand, and the Chinese people will benefit from the lower prices and improved quality of the rice. This is a positive step towards trade liberalization and economic growth in China.

The U.S. rice industry has long been a major export for the United States. The Chinese market is a vast and growing one, and the U.S. rice industry is eager to expand its presence there. The Chinese government's decision to open its market to U.S. rice is a welcome move that will benefit both sides. Lanao town put under Comelec control

MANILA — The Commission on Elections (Comelec) has placed Lanao del Norte under its control after a series of protests and threats of violence by the Moro Islamic Liberation Front (MILF) against the local government. The MILF has been demanding the withdrawal of the Philippine government from the region and the establishment of an independent Islamic state. The MILF has been active in Lanao del Norte, particularly in the town of Marawi, where it has been fighting against the Philippine government. Dagupan kids not prepared for killer quake

MANILA — Children in Dagupan, Ilocos Norte, are not prepared for a major earthquake, a study by the Philippine Institute of Volcanology and Seismology (PHIVOLCS) has found. The study found that only 10 percent of the children in Dagupan know how to protect themselves in the event of an earthquake. The study also found that the children in Dagupan are not aware of the dangers of earthquakes. The study was conducted by a team of researchers from PHIVOLCS and the Department of Education. San Miguel sells stake in Rockwell to Lopez firm

P1 17-B deal raises First Holdings' interest to 97.3%

By David J. Bernstein

San Miguel Corp. has sold its 2.7% stake in Rockwell International Corp. to a firm controlled by the Lopez family, raising its ownership to 97.3%, according to a filing with the Securities and Exchange Commission.

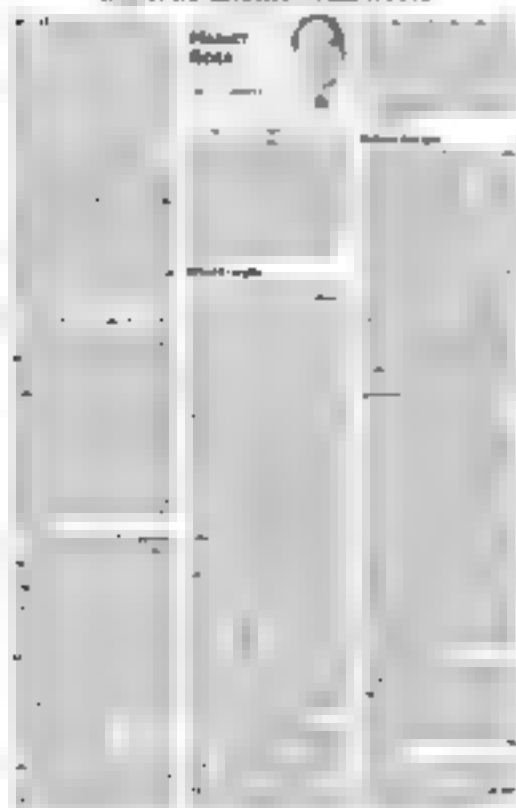

The deal, which was announced last week, was completed on May 8. The Lopez family, through its holding company, First Holdings Inc., now owns 97.3% of Rockwell, which is a publicly traded company. The sale of the stake was part of a larger transaction involving the company's debt and equity.

Rockwell, which is a major defense contractor, has been a subsidiary of San Miguel since 1987. The company has a long history of military and aerospace work, and is known for its advanced technology and engineering capabilities.

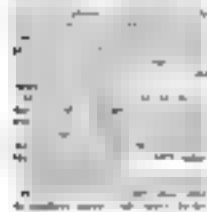

The sale of the stake to the Lopez family is a significant move for San Miguel, as it marks the end of its ownership in Rockwell. The company has been a major shareholder in Rockwell for several years, and the sale is expected to generate a large amount of cash for San Miguel.

The deal was approved by the board of directors of San Miguel, and the transaction is expected to be completed by the end of the month. The sale of the stake is a key part of San Miguel's strategy to focus on its core business and to reduce its debt.

7-Eleven, Caltex take partnership to next level

The partnership between 7-Eleven and Caltex has taken a significant step forward with the launch of the 7-Eleven Caltex convenience stores. This new initiative aims to provide customers with a wider range of products and services, including fresh food, groceries, and automotive services. The stores are expected to be a major success for both companies, as they combine the strengths of 7-Eleven's convenience store network with Caltex's expertise in fuel and automotive products. The partnership is a testament to the companies' commitment to innovation and customer service.

Figure 1: A schematic diagram of the experimental setup for the study of the effect of the concentration of the solution on the rate of the reaction. The diagram shows a reaction vessel containing a solution of a reactant, with a stirrer and a thermometer. The vessel is connected to a gas collection system, which includes a gas syringe and a water trough. The gas syringe is used to measure the volume of gas produced during the reaction. The water trough is used to collect the gas, and the volume of gas is measured by the displacement of water. The diagram is labeled with 'Reactant solution', 'Stirrer', 'Thermometer', 'Gas syringe', and 'Water trough'.

Figure 1 consists of four scatter plots arranged in a 2x2 grid. The top row shows data for 1990 and 1995, and the bottom row shows data for 1990 and 1995. Each plot has 'Number of children' on the x-axis and 'Number of children not in school' on the y-axis. The plots show a positive correlation between the two variables.

Authentic Travel Experiences with HSBC Premier

Five past years have seen a shift in how citizens of the world look at their management of success. Gone are the days when ownership of the latest gadget, car, or object of the hour signified the true measure of success and happiness. Today, more individuals desire to utilize their limited time to enjoy unique experiences that make their life more fulfilling. For many travelers, authentic experiences are becoming increasingly important – journeys that will help them to discover themselves and the world.
